Call Off Method

Full details can be found in the user guide and a Mini Competition Document is available along with the option to undertake a full further competition.

Responsible Procurement

The group will assess the environmental impacts of its operations and set objectives and targets to improve its environmental performance. The group will regularly review these targets.

The group will:
• promote responsibility for the environment within the organisation and communicate and implement this policy to all employees.
• set up and monitor the effectiveness of environmental objectives.
• minimise the use of energy, water, and other resources.
• prevent pollution and reduce waste by reduction, re-use, and recycling methods.
• comply with applicable legal requirements and other requirements to which the group subscribes which relate to its environmental aspects.
• ensure that company policies and services are developed in a way that is complimentary to this policy.
• identify and provide appropriate training, advice, and information for employees to encourage and motivate them to develop new ideas and initiatives and carry out their tasks in an environmentally responsible manner.
• provide appropriate resources to meet the commitments of this policy.
• promote and encourage protection of the environment by promoting the use of sustainable resources, and sustainable work practices including having a dedicated Sustainability group with members from the GLT and Board
• reduce the use of paper by circulating all company documents in soft copy format.
• set up a company SharePoint site to store all company documents.
• measure the group's carbon footprint and produce a carbon management plan to achieve net zero emissions.
ENVIRONMENTAL AND SUSTAINABILITY Version: 1 (updated March 2024) Page| 4
• measure the carbon footprint of each employee's journey to work and incentivise staff to reduce their personal carbon footprint.
• promote business travel with the lowest environmental impact as per the group travel policy.
• promote the use of MS Teams for both internal and external meetings.
• where practicably possible, provide the opportunity for employees to be assigned an initiative linked to a sustainability objective.
• promote and encourage involvement in local environmental initiatives/schemes.
• promote the benefits of sustainability to all members and customers and support them in achieving their own sustainability goals.
• ensure sustainability measures and practices are incorporated into all contracting processes.
• encourage environmental protection among suppliers and subcontractors.

Added Value

1. Collaborative agreement – consolidation of spend
2. A multi–Supplier Framework Agreement will ensure that Suppliers remain competitive through the life of the Framework Agreement
3. Time saving, members can use the framework rather than completing a full tender process
4. Experienced Suppliers
5. Wider range of suppliers
6. Dedicated first aid lot
7. Simplified lay out
8. Customer portal availability
